NNCI Education and Outreach Programs

Education and Training to Create a Skilled Workforce and Informed Public

Copyright 2017 • NNCI
NNCI’S EDUCATION AND OUTREACH MISSION

1. Offer education and training to address the growing need for a skilled workforce and informed public;

2. Provide resources, programs, and materials to enhance knowledge of nanotechnology and its application to real-world issues; and

3. Support the US economy by enabling a STEM-literate workforce ready to meet the technological challenges of a nano-enabled economy as well as an informed citizenry that supports continued and safe growth of nanotechnologies.
